

Hadi Nasir

Full-Stack Developer — AI/ML Engineer — Computer Science

+1-778-957-9011 | Hadinasser067@gmail.com | linkedin.com/in/hadi-nasir-09362318b | github.com/HA11723 | hadinasirdev.netlify.app

SUMMARY

- Full-Stack Developer with 5+ years of experience building web applications using React, Node.js, and modern technologies. Proficient in integrating AI/ML solutions and WordPress/WooCommerce development. Adept at performing QA testing and building e-commerce platforms.

EDUCATION

Langara College

Diploma in Computer Science, Minor in Business

Vancouver, BC

Aug 2022 – May 2025

IPC College

Diploma in QA & Software Testing

Tira, Israel

Jul 2024 – Aug 2025

EXPERIENCE

Full-Stack Developer

2023 – Present

Various Clients (Remote)

- Developed 5+ web applications using React, TypeScript, Node.js, and Express.js serving 50K+ users
- Built custom WordPress themes/plugins with PHP and integrated WooCommerce for e-commerce solutions
- Created RESTful APIs and implemented real-time features, improving user engagement by 40%
- Performed manual testing and QA, creating test cases and reducing production bugs by 75%

AI/ML Developer

Jan 2024 – Present

Various Clients (Remote)

- Built AI/ML solutions using Python, TensorFlow, and scikit-learn for business analytics
- Optimized data pipelines processing 10K+ records/day with 92% efficiency improvement
- Deployed ML models using Docker and Flask APIs with real-time prediction capabilities

Web Developer

2022 – 2025

Personal Projects & Learning

- Built and deployed personal e-commerce websites, learning full-stack web development including custom theme design and integration
- Developed practice landing pages with React/Next.js, implementing payment integrations and analytics

PROJECTS

ChimeIn - Live Event Management App | SwiftUI, Firebase, Node.js, RESTful APIs

2025

- Developed iOS app for creating and managing live real-time events with seamless user experience
- Built backend infrastructure with Node.js and Firebase for real-time data synchronization and user management

AI Stock Market Predictor | React, Python, TensorFlow, Flask, Docker

2025

- Built full-stack app with React frontend and Flask API, LSTM model achieving 87% accuracy
- Deployed on AWS with real-time data processing and visualization features

SmartHealth Copilot | React, Python, OpenAI, FastAPI, Pinecone

2025

- Developed AI medical assistant with 90%+ symptom matching accuracy across 6 languages
- Implemented GPT integration and vector database search for intelligent recommendations

E-commerce Platform | React, Node.js, WordPress, MongoDB, Stripe

2024

- Created headless e-commerce solution with WordPress CMS and React frontend
- Integrated payment processing, inventory management, and admin dashboard

TECHNICAL SKILLS

Frontend: React, TypeScript, Next.js, SwiftUI, HTML5, CSS3, JavaScript

Backend: Node.js, Express, PHP, Spring Boot, RESTful APIs

Languages: JavaScript, Python, Java, C++, PHP, SQL, Swift

Databases: MongoDB, PostgreSQL, MySQL, Firebase

AI/ML: TensorFlow, scikit-learn, OpenAI API, LangChain, Pandas, NumPy

Tools: Git, Docker, AWS, WordPress, WooCommerce

Testing: Manual Testing, Test Case Development, QA Methodologies, Bug Tracking
